Amit Kilam

THE SHIP HE'S WORKING ON

It was probably 15 years after we finished the school.

At that time we already got popular as Indian Ocean band. One of my former classmates visited our teacher, very nice old lady.

They were having a conversation about events and people when out of curiosity she randomly asked:

- Beta, by the way, where is Amit Kilam now?

My friend got surprised promptly answering:

- Ma'am, you must probably know! He is in Indian Ocean!

- Oh really?! Which ship is he working on?!!

Zublee Baruah

GIFT FROM HARDCORE FAN

Somehow a hardcore fan got my personal number and started to text or call me day after day or even few times a day.

Sometimes I was able to reply. We used to talk a bit. To my surprise she knew a lot about my music, my schedule, my life... She attended most of my concerts.

Sadly, I was too busy to follow up her growing interest to talk. So, there was a time when I was touring and simply had no other choice but to ignore her calls. One day I visited local radio station for a show and the fellow DJ told me:

- Look, I got something for you!

He gave me the coupon and the letter where my hardcore fan wrote: "Dear Zublee, I'm so worried! You might have financial issues since you can't charge your phone to take my calls. Here I'm sending you recharge coupon! Hope we can talk again soon!"

Iman Chakraborty

NEVER STOP BELIEVING

After my mom passed away, I had probably the darkest time in my life. I stopped listening to music... I stopped practicing...

Until one fine morning the tune of Pandit Yash Raj changed my mindset. I was able to find motivation to get back at life and started meeting people, practicing yoga, playing badminton... I came back to my music and began to upload my songs on my You Tube channel.

All of a sudden, I got a call from one of the finest music directors Mr. Anupam Roy who showered me with compliments inviting me to his studio to sing a song for his movie. That song proved to be a great success bringing the first Filmfare Nomination in 2017.

I can say it was the turning point in my career. So, here is my message to young talents: never stop believing in yourself!
